The unaudited condensed consolidated financial statements are presented in thousands of units of HK\$ (HK\$’000), unless otherwise stated.

The Company acts as an investment holding company while its subsidiaries are principally engaged in the provision of general hospital services in the PRC.

2. Basis of preparation and principal accounting policies

The unaudited condensed consolidated financial statements for the nine months ended 31 December 2021 have been prepared in accordance with Hong Kong Financial Reporting Standards (“**HKFRSs**”), which is a collective term that includes all applicable HKFRSs, Hong Kong Accounting Standards (“**HKASs**”) and Interpretations (the “**Interpretations**”) issued by the Hong Kong Institute of Certified Public Accountants (the “**HKICPA**”), accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance and the applicable disclosure requirements of the GEM Listing Rules. The unaudited condensed consolidated financial results have been prepared under the historical cost convention except for certain financial assets and investment properties that are measured at fair value. Historical cost is generally based on the fair value of the consideration of given in exchange of assets.

The accounting policies adopted in preparing the unaudited condensed consolidated financial results for the nine months ended 31 December 2021 are consistent with those used in the preparation of the annual financial statements for the year ended 31 March 2021 (the “**2020/2021 Financial Statements**”), except for the new and revised standards, amendments and interpretations of HKFRSs (“**new and revised HKFRSs**”) issued by HKICPA which have become effective in this period as detailed in notes to the 2020/2021 Financial Statements. The Directors believe that the application of these new and revised HKFRSs has no material impact on the amounts reported and disclosures set out in these unaudited condensed consolidated financial results.

4. Taxation

No provision for Hong Kong profits tax has been made in the financial statements as the Group had no assessable profits derived from Hong Kong's operations during the period (2020: Nil).

Corporate income tax of approximately 25% has been provided for the profit generated from provision of general hospital services in the PRC (2020: approximately 25%).

5. Dividends

The Directors do not recommend the payment of a dividend for the nine months ended 31 December 2021 (2020: Nil).

6. Profit/(loss) per share

The calculation of basic loss per share for the three months ended 31 December 2021 was based on the loss attributable to owners of the Company of approximately HK\$4.477 million (2020: approximately HK\$6.879 million) and on the weighted average number of ordinary share of approximately 2,818,249,944 shares (2020: 2,818,249,944 shares).

The calculation of basic profit per share for the nine months ended 31 December 2021 was based on the profit attributable to owners of the Company of approximately HK\$2.729 million (2020: loss attributable to owners of the Company of approximately HK\$15.880 million) and on the weighted average number of ordinary shares of approximately 2,818,249,944 shares (2020: 2,818,249,944 shares).

Diluted profit/(loss) per share was calculated adjusting the weighted average number of ordinary shares outstanding to assume conversion of all dilutive potential ordinary shares. For the three months and nine months ended 31 December 2021, the Company had a category of dilutive potential ordinary shares: share options. For the three months and nine months ended 31 December 2021 and 2020, the calculation of diluted earnings per share did not assume the exercise of the convertible note existed at 31 December 2021 and 2020 as the exercise of the convertible note would increase earnings per share, therefore anti-dilutive.

For the share options a calculation is done to determine the number of shares that could have been acquired at fair value (determined as the average annual market share price of the Company's shares) based on the monetary value of the subscription rights attached to outstanding shares options. The number of shares calculated as above is compared with the number of shares that would have been issued assuming the exercise of the share options.

MANAGEMENT DISCUSSION AND ANALYSIS

Financial Review

For the nine months ended 31 December 2021 (the “**period under review**”), the Group recorded a turnover on business operations of approximately HK\$39.967 million (2020: approximately HK\$36.554 million), representing an increase of approximately 9.34% compared to the same period last year. The increase was due to the epidemic situation having stabilized and general hospital services being able to resume gradually. The Company had also closely monitored and reviewed the epidemic situation from time to time to reduce its impact on the provision of services while meeting the demand for its services.

Selling and distribution expenses for the period under review amounted to approximately HK\$13.130 million (2020: approximately HK\$11.225 million), representing an increase of approximately 16.97% compared to the same period last year. The increase was due to the commenced business of Putian Edinburgh Friendship Hospital which had successfully obtained the medical licence for its operation on 17 July 2020 and had conducted a trial run.

Administrative expenses amounted to approximately HK\$46.056 million (2020: approximately HK\$47.186 million), decreased by approximately 2.39%. The decrease was due to the disposal of the Putian Edinburgh Friendship Hospital as disclosed in the announcement and circular of the Company dated 23 August 2021 and 15 September 2021 respectively.

The Group recorded a profit attributable to owners of the Company of approximately HK\$2.729 million for the period under review (2020: loss attributable to owners of the Company of approximately HK\$15.880 million). The increase in profit was mainly due to the recognition of a gain of approximately HK\$31.683 million upon completion of disposal of subsidiaries during the nine months ended 31 December 2021. The loss attributable to owners of the Company for the three months ended 31 December 2021 was approximately HK\$4.477 million (2020: attributable to owners approximately HK\$6.879 million).

Business Review and Outlook

General hospital services

During the nine months ended 31 December 2021, the Group operated two general hospitals in Putian and Beijing (2020: Putian and Beijing), principally engaged in the provision of general hospital services including but not limited to medical wards, surgical wards, medical checkup and examination. The total turnover contributed by these general hospitals for the nine months ended 31 December 2021 was approximately HK\$39.967 million (2020: approximately HK\$36.554 million), representing an increase of approximately 9.34% compared to the same period last year.

Future Prospects

The access to the quality and affordable healthcare services to treat some fast-growing chronic diseases is considered as the key to the implementation of Healthy China Plan (2019-2030). China has become one of the largest countries with more than 249 million seniors who depend on accessible and adequate care. Approximately 180 million of them require special medical treatment of chronic diseases. According to data of the Seventh National Population Census released by the National Bureau of Statistics of China in May 2021, the population aged 60 and over has accounted for approximately 18.70% of the total population in China, representing a year-on-year increase of 5.44% (Among them, the population of 65 years and over is 190.64 million, accounting for 13.50%). As a result, the increasing demands are the driving forces to improve and to expand the existing healthcare infrastructures, including hospitals, clinics and testing facilities across the PRC.

Following the disposal of the hospital in Putian, The Group will continue to operate its existing business, including the hospital in Beijing which provides a steady revenue stream, and development of international diabetes center in Hainan, the PRC which is operated by Edinburgh International Diabetes Hospital (Hainan) Co. Ltd. The international diabetes center aims to introduce clinical proof diabetes diagnosis and treatment technology from international experience to provide diabetes diagnosis and treatment programme in the PRC. Going forward, the management will continue to focus on improving the quality and safety of medical services and optimizing our resources for the better outcomes both medically and financially, and will continue to explore new business opportunities in the medical and related sectors.

The Directors do not recommend the payment of a dividend for the nine months ended 31 December 2021 (2020: Nil).
